Mindspeed Technologies, Inc.
4000 MacArthur Blvd., East Tower
Newport Beach, CA 92660

RoHS 5 of 6 Certificate of Compliance

We certify that all Mindspeed Technologies, Inc ("Mindspeed") standard products meet the requirements and the threshold limits of the five hazardous substances specified in the Directive 2002/95/EC of the European Parliament and of the Council of 27 January 2003 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (the "RoHS Directive"). The maximum allowable concentration values of the five hazardous substances in homogeneous materials is 0.1% by weight for mercury, hexavalent chromium, polybrominated biphenyls, (PBB) and polybrominated diphenyl ethers (PBDE) including Deca/Octa-BDE and 0.01% by weight for cadmium. Lead, the sixth substance is exempt for the reasons noted below.

1. Lead in solder to complete a viable connector between semiconductor die and carrier within integrated circuit flip chip packages. This exemption is applicable to Mindspeed flip-chip devices.
2. Lead in solder for server, storage and storage array systems, network infrastructure equipment for switching, signaling, transmission as well as network management for telecommunications as stated in the Annex of the Commission Decision of 21 October 2005.

The exemption for lead in item 2 above is applicable only if the end product fits the definition of a server or network infrastructure equipment. Mindspeed Products do not fit the definition of a server or network infrastructure equipment as explained in the Department of Trade and Information RoHS Directive Guidance Notes dated August 2005, but could meet the RoHS Directive if our customer's end product meets the exemption for lead in second level interconnect (soldering alloy).

Mindspeed further certifies that it has taken reasonable steps to collect accurate package material information from third party suppliers, but Mindspeed may not have conducted destructive testing or chemical analysis on incoming materials and chemicals. As such, Mindspeed makes no independent representations or warranty, expressed or implied, and assumes no liability in connection with the use of this information.
